

Mounting solutions for video-conferencing

Floor Mounts Mobile Carts

Mobile carts are ideal for educational institutions, call centres, teleconferencing, broadcasting, lecture-room collaboration, military applications, and production studios.

Atdec’s TV carts come equipped with a range of features to ensure high levels of performance and reliability – including lockable castors, display rotation and optional accessories to support AV equipment.

Web Conferences Accessories

For Teams, Zoom rooms and other presentation and media broadcasting applications

Atdec Media Slider

Whether it's a new video-conferencing installation or a retrofit project, the sliding panel minimises time, manpower, and ultimately cost for installers and integrators.

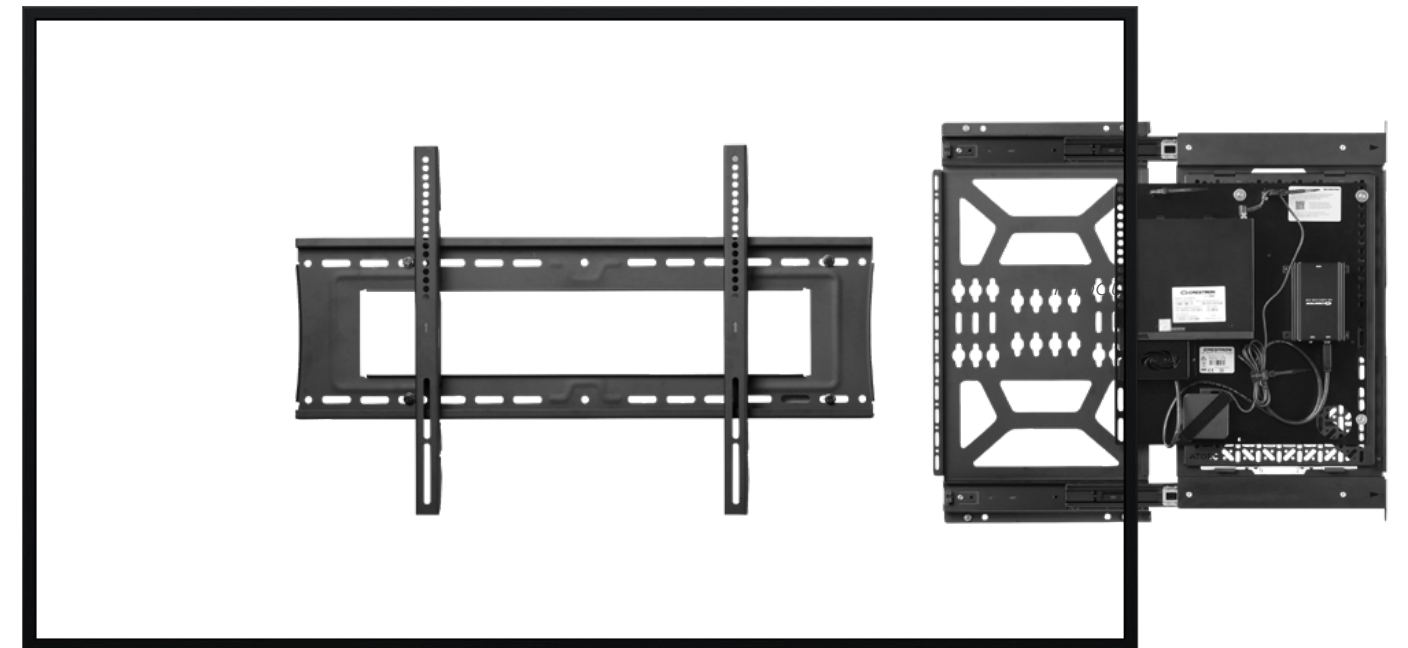

Minimises installation time:

- › All equipment is pre-installed on a single sliding plate. Components can be organised and tested prior to the on-site installation.
- › Maintenance and upgrades do not require time-consuming dismantling.
- › No need to remove the display - the slider allows quick access to all components.
- › Provides additional security with controlled access to installed equipment.

Your advantage:

- › Dramatically reduces time on site, especially for multi-room installations.
- › Reduces manpower requirements.
- › Helps to meet onerous SLA and service agreements.

AD-AP-PS

WALL MOUNTS

Universal fit mounts with fixed, tilt and full motion options.

- › Variety of options to fit any display size.
- › Post-installation display adjustment features.
- › Steel structure for longevity.
- › Safe and secure installation.
