Atdec Media Slider

Whether it's a new video-conferencing installation or a retrofit project, the sliding panel minimises time, manpower, and ultimately cost for installers and integrators.

AD-AC-PS
Minimises installation time:

❯ All equipment is pre-installed on a single sliding plate. Components can be organised and tested prior to the on-site installation.

❯ Maintenance and upgrades do not require time-consuming dismantling.

❯ No need to remove the display - the slider allows quick access to all components.

❯ Provides additional security with controlled access to installed equipment.

Your advantage:

❯ Dramatically reduces time on site, especially for multi-room installations.

❯ Reduces manpower requirements.

❯ Helps to meet onerous SLA and service agreements.
